

A world leader in pari-mutuel pools betting, Sportech is Delivering a Winning Experience to gaming operators and fans alike.

Spanning both B2B and B2C markets, Sportech customers range from large gaming enterprises to charitable foundations conducting raffles at sporting events, to racing fans having a bet at one of our venues or through our digital channels.

Sportech operates under three distinct business segments in highly regulated gaming markets.

Sportech Racing // Digital

The world-leading supplier of betting technology and services to the global racing and betting industry, with systems that process over \$11 billion in betting annually for customers on six continents. A co-founder of the global commingling protocol ITSP, Sportech plays a pivotal role in the international distribution of racing pools.

Sportech Venues

Holder of exclusive, perpetual or long-running licenses to conduct pari-mutuel betting in-venue and via digital channels in Connecticut and the Netherlands, with further licenses to operate betting venues in California. Sportech is well-positioned to offer a wider portfolio of sports and gaming products as and when permitted.

Bump 50:50

Innovative provider of digital sports raffle solutions to some of North America’s best-known major league and collegiate sports teams, and entertainment venues. Bump 50:50 allows charitable foundations to raise funds through digital 50/50 raffles held at sporting and entertainment events in large stadiums.

Our strategy involves further evolving our technologies, global footprint, and exclusive licences to secure a leading position in the widening U.S. and global gaming industry.

Sportech Racing // Digital

- Sportech Racing and Digital is the largest international provider of pari-mutuel wagering systems and services.
- The division provides the software, hardware, and services that facilitate pool/tote betting for a global customer base of licensed horse racing, greyhound racing, and betting operators.
- Its proprietary Quantum™ System is the world's most-widely deployed pari-mutuel betting system built for exceptional scale, efficiency, and reliability.
- It's Quantum™ System software, global service delivery network, digital platforms, and betting device technologies have fueled geographic expansion, particularly in Asia, and rapid expansion of cross-border pooled bets.
